UNIVERSITY OF SASKATCHEWAN
SASKATOON

Author : *pages* ii-iii
Subject : *pages* iv-vii

LONDON: HER MAJESTY'S STATIONERY OFFICE

AUTHOR INDEX

ALLAN, R. M. (joint author), see Shaw, M. W., 46.

ATANASOV, PETAR and COLLINGWOOD, C. A. Effects of Metham Sodium and other Chemicals on Potato Root Eelworm, 153-7.

ATKINS (née Mason), E. CHRISTINE (joint author), see Gould, H. J., 1-6.

AUSTIN, W. G. L. (joint author), see Bray, Myrtle, F., 106-7.

BANWELL, M. (joint author), see Wallace, E. R., 33-5.

BARDNER, HEATHER M. (joint author), see Strickland A. H., 93-105.

BATKO, S. Perithecia of Oak Mildew in Britain, 184.

BOYD, A. E. W. and LENNARD, J. H. Seasonal Fluctuation in Potato Skin Spot, 161-6.

BRAY, MYRTLE F. and AUSTIN, W. G. L. Conidial Suspensions of *Venturia inaequalis* for Inoculation of Apple Rootstocks, 106-7.

BURGESS, P. G. (joint author), see Harrison, D. J., 23-5.

CARDEN, P. W. The Cabbage Leaf Miner attacking Calabrese, 36-7.

CLARK, MARJORIE R. M. and GRAHAM, D. C. A. Disease of Forced Rhubarb associated with *Pseudomonas marginalis*, 31-3.

COCK, L. J. (joint author), see Cox, Judith, 65-6.

COLLINGWOOD, C. A. (joint author), see Atanasov, Petar, 153-7.

COX, JUDITH and COCK, L. J. Survival of *Cercosporella herpotrichoides* on naturally Infected Straws of Wheat and Barley, 65-6.

CROXALL, H. E. (joint author), see Rosser, W. R., 131-3.

DOLING, D. A. Yellow Rust of Wheat and Barley in England and Wales, 1961, 91.

DOLING, D. A. (joint author), see Large, E. C., 47-57.

DUNN, E. (joint author), see Osborne, P., 108-9.

FLETCHER, J. T. Experiments on the Control of Mint Rust, 115-20.

FLETCHER, J. T. and KINGHAM, H. G. Rose Line Pattern Virus, 92.

GAIR, R. (joint author), see George, K. S., 73-80.

GEORGE, K. S., LIGHT, W. I. ST. G. and GAIR, R. The Effect of Artificial Defoliation of Pea Plants on the Yield of Shelled Peas, 73-80.

GEORGE, K. S. Root Nodule Damage by Larvae of *Sitona lineatus* and its Effect on Yield of Green Peas, 172-6.

GIBBS, A. J. Lucerne Mosaic Virus in British Lucerne Crops, 167-71.

GIBBS, A. J. (joint author), see Heathcote, G. D., 69-73.

GOULD, H. J. Trials on the Control of Slugs on Arable Fields in Autumn, 125-30.

GOULD, H. J. *Napomyza lateralis* on Lettuce, 138.

GOULD, H. J. Tests with Seed Dressings to control Grain Hollowing of Winter Wheat by Slugs, 147-52.

GOULD, H. J., LEGOWSKI, T. J. and ATKINS (née Mason), E. CHRISTINE. Surveys of Pea Moth Damage on Dry Harvesting Peas in East Anglia, 1957-59, 1-6.

GOULD, H. J. and WINFIELD, A. L. Red-legged Earth Mite, 157-9.

GRAHAM, D. C. (joint author), see Clark, Marjorie, R. M., 31-3.

GREEN, J. (joint author), see Wallace, E. R., 33-5.

GREET, D. N. and WALLACE, H. R. Diagnosis of Eelworm Attack in Chrysanthemums, 43.

HARDMAN, J. A. (joint author), see Wheatley, G. A., 81-90.

HARRISON, D. J. and BURGESS, P. G. Use of Rootstock Resistance for Controlling Fusarium Wilt of Tomatoes, 23-5.

HEATHCOTE, G. D. and GIBBS, A. J. Virus Diseases in British Crops of Field Beans (*Vicia faba* L.) 69-73.

HIRST, J. M. and STEDMAN, O. J. The Epidemiology of *Phytophthora infestans*. III. Spraying Trials 1952-1958, 7-13.

HOLMES, T. D. and STOREY, I. F. Comparative Trials of Copper, Dithiocarbamate and Organo-tin Fungicides for Potato Blight Control in Lincolnshire, 1958-1961, 139-46.

HULL, R. Sugar Beet Yellows in Great Britain, 1961, 183.

KINGHAM, H. G. (joint author), see Fletcher, J .T., 92.

KNIGHT, B. C. NICHOLS, AGNES A. and LEAVER, CHRISTINE W., Bacterial Leaf Spot of Pelargonium, 29-30.

LARGE, E. C. and DOLING, D. A. The Measurement of Cereal Mildew and its Effect on Yield, 47-57.

LAST, F. T. Effects of Nutrition on the Incidence of Barley Powdery Mildew, 133-5.

LEAVER, CHRISTINE W. (joint author), see Knight, B. C., 29-30.

LEGOWSKI, T. J. (joint author), see Gould, H. J., 1-6.

LENNARD, J. H. (joint author), see Boyd, A. E. W., 161-6.

LEWIS, SERFIAH. A Root-knot Eelworm attacking Grasses, 92.

LIGHT, W. I. ST. G. Stem Eelworm in Eremurus, 184.

LIGHT, W. I. ST. G. (joint author), see George, K. S., 73-80.

MASKELL, F. E. Insecticidal Sprays for the Control of Wheat Bulb Fly Larvae, 177-80.

METEOROLOGICAL OFFICE. The Weather of England and Wales, 44-5, 136-7.

NICHOLS, AGNES A. (joint author), see Knight, B. C. 29-30.

OSBORNE, P. and DUNN, E. A Rapid Method for obtaining 1 ml Aliquots of Eelworm Suspensions, 108-9.

PAWSEY, R. G. Leaf Blotch of Horse Chestnut, 137-8.

PAWSEY, R. G. Resurgence of Sooty Bark Disease of Sycamore, 138.

ROSSER, W. R. and CROXALL, H. E. Attempts to Control Club Root of Swedes by Fungicidal Seed Pelleting, 131-3.

ROUND, K. M. (joint author), see Wallace, E. R., 33-5.

RUSSELL, G. E. The Distribution of Sugar Beet Yellowing Viruses in East Anglia in 1960, 14-16.

SHARPLES, R. O. The Perfect Stage of *Gloeosporium perennans* on Fruit Trees, 180-2.

SHAW, M. W. and ALLAN, R. M. *Phlogophora meticulosa* damaging Potato Foliage in Scotland, 46.

SLOPE, D. B. Cephalosporium Stripe Disease of Wheat, 160.

SOUTHEY, J. F. Leaf and Bud Eelworm on *Melandrium elisabethae* Rohrb., 45.

SPENCER, D. M. Polystyrene Microbeakers for Spore Germination Tests, 41-3.

WINFIELD, A. L. Effect of Early Flower-bud Removal on Subsequent Development of some Brassica Seed Plants, 17-22.

WINFIELD, A. L. (joint author), see Gould, H. J., 157-9.

SUBJECT INDEX

Agriolimax reticulatus, 26, 125, 151.

Agropyron repens, 119.

Agrostis canina, 119.

Aldrin:
  For control of:
    Chrysanthemum Stool Miner, 40.
    Springtails on Anemones, 68.
    Wireworm in Potatoes, 100.
    Wheat Bulb Fly Larvae, 177.
  Residues in Farm Soils, 87.

Aphelenchoides ritzemabosi, 43.

Apples:
  Conidial Suspensions of *Venturia inaequalis* for Inoculation of Apple Rootstocks, 106.
  Pathogenicity of *Gloeosporium album* to Maiden Shoots of Cox's Orange Pippin, 110.
  The Perfect Stage of *Gloeosporium perennans* on Apple Trees, 180.

Arion hortensis, 125, 150, 151.

Bacterial Leaf Spot of Pelargonium, 29.

Barley:
  Effects of Nutrition on Mildew, 133.
  Eyespot: Survival of causal fungus on infected Straws, 65.
  Leaf Areas at each Growth Stage, 48.
  Loss of Grain caused by Mildew, 54.
  Mildew Resistant Varieties, 55.
  Yellow Rust in 1961, 91.

Beans:
  Springtail Damage to French Bean Seedlings, 67.
  Virus Diseases in British Crops of Field Beans, 69.

Benzyl benzoate for Control of Slugs, 25.

Botrytis cinerea, 31, 42.

Botrytis paeoniae, 33.

Brassica juncea, 17, 36.

Brussels Sprouts:
  Effect of early Flower-bud Removal on Seed Plants, 17.

Cabbage Leaf Miner attacking Calabrese, 36.

Calcium cyanamide for Control of:
  Potato Root Eelworm, 155.
  Slugs, 127.

Calomel for Control of Club Root of Swedes, 132.

Captan, Effect on Spore Germination of *Botrytis cinerea*, 42.

Carbon disulphide for Control of Potato Root Eelworm, 155.

Cephalosporium gramineum, 160.

Cereal Mildew, Measurement and Effect on Yield, 47.

Chenopodium capitatum, 14.

Chloropicrin-Methyl bromide Soil Fumigation, Effect on Springtails, 67.

Chrysanthemum:
  Biology and Control of Stool Miner, 38.
  Diagnosis of Eelworm Attack, 43.

Chrysanthemum maximum, 40.

Cirsium arvense, 119.

Copper carbonate for Control of Slug Damage to Winter Wheat, 148.

Copper Oxychloride for Control of:
  Potato Blight, 7, 140.
  Slug Damage to Winter Wheat, 148.

Copper sulphate for Control of Slugs 127.

Cryptostroma corticale, 138.

Culture Media: for *Venturia inaequalis*, 106.

Cyclamen: Control of Cyclamen Mite, 121.

Dahlia, Disease caused by *Pseudomonas* sp., 31.

D-D for Control of Potato Root Eelworm, 154.

DDT:
  For Control of:
    Pea Moth, 5.
    Sitona lineatus on Peas, 73, 172.
    Springtails on Anemones, 68.
    Red-legged Earth Mite, 159.
    Wireworm in Potatoes, 100.
  Residues in Soils, 87.

Demeton-methyl for Control of Wheat Bulb Fly Larvae, 177.

Dibutyl phthalate for Control of Slugs, 25.

Dicloran for Control of *Botrytis paeoniae*, 34.

Dieldrin:
  For Control of:
    Chrysanthemum Stool Miner, 40.
    Frit Fly in Spring Oats, 28.
    Slug Damage to Winter Wheat, 148.
    Wheat Bulb Fly Larvae, 177.
  Residues in Soils, 87.

Dimethoate for Control of Wheat Bulb Fly Larvae, 178.

Dimethyl phthalate for Control of Slugs, 25.

Disease Measurement:
  Cereal Mildew, 47.
  Potato Skin Spot, 161.

DNOC for Control of Slugs, 25.

Eelworm:
Autumn Damage to Oats, 46.
Diagnosis of Attack on Chrysanthemum, 43.
On *Melandrium elisabethae*, 45.
Potato Root Eelworm, 157.
Rapid method of obtaining 1 ml Aliquots of Eelworm Suspensions, 108.
Root-knot Eelworm attacking Grasses, 92.
Stem Eelworm in Eremurus, 184.
Technique for Testing Soil Sterilants, 157.

Endrin for Control of Cylamen Mite, 122.

Eradex for Control of Cyclamen Mite, 122.

Eremurus bungei, 184.

Erodium circutarium, 119, 133.

Erysiphe graminis, 47.

Fenthion for Control of Wheat Bulb Fly Larvae, 179.

Ferbam for Control of Club Root of Swedes, 132.

Fluoroacetamide for Control of Cyclamen Mite, 122.

Forecasting:
Potato Skin Spot, 165.

Fusarium oxysporum, f. *lycopersici*, 23.

Gamma BHC:
For Control of:
Chrysanthemum Stool Miner, 40.
Springtails on Anemones, 68.
Residues in Farm Soils, 87.

Geranium molle, 119.

Gloeosporium album, 110.

Gloeosporium perennans, 180.

Guignardia aesculi, 137.

Heterodera avenae, 46.

Heterodera spp., 108, 155.

Hoe 2784 for Control of Cyclamen Mite, 122.

Horse-chestnut Leaf Blotch, 137.

Hot Water Treatment, for Control of Mint Rust, 115.

Kelthane for Control of Cyclamen Mite, 122.

Laspeyresia nigricana, 1.

Leptohylemyia coarctata, 177.

Lettuce:
Control of Mosaic by Use of Healthy Seed, 61.
Napomyza lateralis on, 138.
Ovipositing of Chrysanthemum Stool Miner on, 39.

Lime Sulphur, for Control of Cereal Mildew, 53.

List of Common British Plant Diseases, 120.

Losses caused by:
Lucerne Mosaic, 171.
Pea Moth, 6.
Sitona lineatus in Peas, 80.
Sugar Beet Yellows, 183.
Virus Diseases in Beans, 72.
Wireworm in Potatoes, 96.

Lucerne Mosaic Virus in British Crops, 167.

Lycopersicon pimpinellifolium, 23.

Lycopersicon hirsutum glabratum, 23.

Maneb for Control of Potato Blight, 140.

Matricaria maritima, 119.

Mayetiola dactylidis, 157.

Megoura viciae, 72.

Melandrium elisabethae, 45.

Melandrium sp., 119.

Meligethes aeneus, 17.

Meloidogyne artiellia, 92.

Meloidogyne incognita, 67.

Mentha piperita, 115.

Mentha spicata, 115.

Metaldehyde for Control of Slugs, 25, 127, 148.

Metham Sodium for Control of Potato Root Eelworm on Tomatoes, 153; Phytotoxicity to Tomatoes, 154.

Methyl isothiocyanate for Control of Potato Root Eelworm, 154.

Mevinphos for Control of Wheat Bulb Fly Larvae, 178.

Micropeza corrigiolata, 176.

Microsphaera alphitoides, 184.

Milax gagates, 125, 151.

Mint, Experiments on the Control of Rust, 115.

Molluscacidal Properties of Three Fly Repellants, 25; of other Chemicals, 126.

Myzus persicae, 14.

Neofabraea perennans, 180.

New or Uncommon Plant Diseases and Pests, 45, 92, 184.

Oak; Perithecia of Oak Mildew in Britain, 184.

Oats:
- Frit Fly Control in Spring Oats, 28.
- Leaf Areas at each Growth Stage, 48.
- Loss of Grain caused by Mildew, 55.
- Mildew Resistant Varieties, 56.

Onychuirus hortensis, 67.

Oospora pustulans, 161.

Organo-mercury fungicides, Effect on Slug Damage to Winter Wheat, 150.

Oscinella frit, 28.

Paeony, Control of *Botrytis* by Soil Drenches, 33.

Papaver sp., 119.

Parathion for Control of:
- Pea Moth, 5.
- Wheat Bulb Fly Larvae, 177.

Paris Green for Control of Slugs, 127, 148.

Peas:
- Effect of Artificial Defoliation on Yield, 73.
- Pea Moth Damage on Dry Harvesting Peas in East Anglia, 1957-9, 1.
- Root Nodule Damage by Larvae of *Sitonia lineatus* and its Effect on Yield of Green Peas, 172.
- Simulation of *Sitona* injury, 73.

Pelargonium Bacterial Leaf Spot, 29.

Pelargonium peltatum, 30.

Pelleting Swede Seed for Control of Club Root, 131.

Penthachlorphenol for Control of Slugs, 125.

Penthaleus major, 158.

Pest Assessment:
- *Sitona lineatus* in Peas, 80.
- Potato Root Eelworm, 153.

Pezicula malicorticis, 180.

Phyllactinia corylea, 184.

Phyllasticta paviae, 137.

Phlogophora meticulosa, 46.

Phytomonas geranii, 29.

Phytomyza rufipes, 36.

Phytophthora infestans, 7, 139.

Picris echioides, 119.

Poa annua, 119.

Polystyrene Microbeakers for Spore Germination Tests, 41.

Potatoes:
- Blight Progress Curves, 1958-61, 143.
- Comparative Trials of Copper, Dithiocarbamate and Organo-tin Fungicides for Blight Control in Lincolnshire, 1958-61, 139.
- Damage by *Phlogophora meticulosa*, 46.
- Haulm Destruction, 7.
- Seasonal Fluctuation in Skin Spot, 161.
- Skin Spot in Crops overwintered in the ground, 163.
- Spraying Trials at Rothamsted, 1952-8, 7.
- Wireworm Damage and Insecticidal Treatment of the Ware Crop in England and Wales, 93.

Pseudomonas marginalis, 31.

Psila nigricornis, 38.

Psila nigromaculata, 40.

Psila rosae, 39.

Puccinia menthae, 115.

Quercus petraea, 184.

Quercus robur, 184.

Red-legged Earth Mite, 157.

Residues:
- Chlorinated Hydrocarbon Insecticides in Soils, 81.

Rose Line Pattern Virus, 92.

Rhubarb, *Pseudomonas marginalis* on, 31.

Rumex crispus, 119.

Senecio vulgaris, 119.

Sevin for Control of Slugs on Winter Wheat, 150.

Sitona lineatus, 73, 172.

Slugs:
- Tests with Seed Dressings to Control Grain Hollowing of Winter Wheat, 147.
- Trials on Control of Slugs on Arable Fields in Autumn, 147.

Trials of Fly Repellents against, 25.

Sodium arsenite for Control of Slugs, 127.

Springtail Damage to Bean Seedlings, 67.

Stellaria media, 119.

Steneotarsonemus pallidus, 121.

Strawberry, Control of Cyclamen Mite, 121.

Sucrose for Control of Potato Root Eelworm, 155.

Sugar Beet:
- Distribution of Yellowing Viruses in East Anglia in 1960, 14.
- Yellows in Great Britain, 1961, 183.

Sulphuric Acid, for Potato Haulm Destruction, 7; for Control of Mint Rust, 119.

Surveys:
Pea Moth Damage, 1.
Sooty Bark Disease of Sycamore, 138.
Wireworm Damage to Potatoes, 93.

Swedes:
Attempts to Control Club Root by Fungicidal Seed Pelleting, 131.

Sycamore: Resurgence of Sooty Bark Disease, 138.

Tecnazene for Control of *Botrytis paeoniae*, 34.

Telodrin for Control of Wheat Bulb Fly Larvae, 179.

Tetranychus telarius, 123.

Thiodan for Control of Cyclamen Mite, 122.

Thiodan for Control of Club Root of Swedes, 132.

Tomatoes:
Metham sodium Soil Treatments, 153.
Use of Rootstock Resistance to Control Fusarium Wilt, 23.

Traps and Trapping:
Chrysanthemum Stool Miner, 39.
Red-legged Earth Mite, 158.

Trichlorphon for Control of Wheat Bulb Fly Larvae, 177.

Triphenyltin acetate for Control of Potato Blight, 140.

Trowse Mustard:
Cabbage Leaf Minor on, 36.
Effect of early Flowed-bud Removal on Seed Plants, 17.

Typhlodromus pyri, 123.

Typhlodromus reticulatus, 123.

Urtica urens, 119.

Venturia inaequalis, preparation of Conidial Suspensions, 106.

Veronica persica, 119.

Virus Diseases:
Lettuce Mosaic, 61.
Lucerne Mosaic in British Lucerne Crops, 167.
Pea Enation Mosaic in Field Beans, 69.
Pea Leaf Roll in Field Beans, 69; in Lucerne, 169.
Pea Mosaic in Field Beans, 69.
Rose Line Pattern Virus, 92.
Sugar Beet Yellows in Great Britain, 1961, 183.
Sugar Beet Yellowing Viruses, 14.

Weather of England and Wales:
Spring and Summer, 1961, 45.
Autumn and Winter, 1961-62, 137.

Wheat:
Cephalosporium Stripe Disease, 160.
Eyespot: Survival of Causal Fungus on Infected Straws, 65.
Insecticidal Sprays for Control of Wheat Bulb Fly Larvae, 177.
Leaf Areas at each Growth Stage, 48.
Seed Dressings to Control Grain Hollowing of Winter Wheat by Slugs, 147.
Yellow Rust in 1961, 91.

Xanthomonas pelargonii, 29.

Xylenol for Control of Potato Root Eelworm, 155.

Yellow Rust of Wheat and Barley in 1961, 91.

Zineb for Control of:
Club Root of Swedes, 132.
Potato Blight, 139.
